# About CastleGolf

## Company History

CastleGolf has built more premium mini golf courses than any other company on earth! We design courses that include plenty of fun, challenging, and scenic elements. This all leads to a novelty customer experience that will keep players returning time and time again!

## Core Mission

We know that recurring play is a cornerstone of your continued success, that's why we specially design our courses with the following considerations;

- Course Flow: We reduce bottlenecks and improve traffic flow at any chance
- Wide Audience Appeal: Each mini golf hole is designed for all ages to have a blast!
- Special Effects: The introduction of specialized scenery and elements like smoke and fire makes each course unique and memorable!

## Quality Craftsmanship

The highest end courses produce the best profitability - that is why we design and build durable courses with the best materials sourceable. Regardless of budget, choosing CastleGolf Inc. means you are building a course that will last generations to come!

## Superb Support

Rather than reactionary teams, our experts design each course with safety and low maintenance in mind. This means your players stay safe, have fun, and come back! This does not conclude at the grand opening, CastleGolf promises to stand behind you and provide excellent customer service post sale. Just ask our many satisfied clients!

# Our Build Process

## Concept/Design

CastleGolf has built more premium mini golf courses than any other company on earth! We design courses that include plenty of fun, challenging, and scenic elements. This all leads to a novelty customer experience that will keep players returning time and time again!

## Build

We know that recurring play is a cornerstone of your continued success, that's why we specially design our courses with the following considerations;

- Course Flow: We reduce bottlenecks and improve traffic flow at any chance
- Wide Audience Appeal: Each mini golf hole is designed for all ages to have a blast!
- Special Effects: The introduction of specialized scenery and elements like smoke and fire makes each course unique and memorable!

## After Sale Durability

The highest end courses produce the best profitability - that's why we design and build durable courses with the best materials available. Regardless of budget, choosing CastleGolf Inc. means you are building a course that will last generations to come!

# Why Mini Golf?

## Play and Produce Profits!

Are you searching for a business model that's both fun and profitable to operate! Mini golf may be the solution you have been searching for! A quality course pays for itself within a few years, and the resulting excellent work environment is the icing on the cake!

## Market Research

You want to stay well informed when making an investment in your business. To succeed in family entertainment, location, realistic budgets, and knowing your target market within your region are crucial to both short and long term success!

## Talk to the Pros !

The best advice comes from those already doing what you aspire to! Get to know local owners in non-competing areas, and discuss how to avoid common pitfalls and best adjust to your market scenario. You can also draw inspiration for theming and layouts by playing a variety of courses!

## Choose CastleGolf

For both short and long term success, you want to choose the right partner. Professional planning, design, and construction are all key factors here. CastleGolf has over 40 years of experience in all these aspects and more! When you need a quality partner for your next endeavour, choose CastleGolf!

# Why CastleGolf?

## Project Management

From beginning to end, CastleGolf's onsite managers ensure your project stays on track and within budget. We clearly demonstrate our commitment to your success every step of the way, even after opening day!

## Build Better Together:

At Castle Golf, every course we create is the product of teamwork - not just within our crew, but with every client we partner with. From concept sketches to final installation, our designers, engineers, and craftsmen work as one unified team. We believe that the best courses are built when everyone's ideas, experience, and creativity come together.

## Process Overview

Every project begins with understanding your goals, audience, and location. Our team works with you to conceptualize a layout that balances fun, challenge, and flow. Turning ideas into reality. Using advanced 3D modeling, we refine each course layout, integrating landscaping, special effects, and durability considerations from the start. Our experienced builders use premium materials and proven techniques to construct courses that stand up to years of play and weather. From maintenance guidance to upgrades, Castle Golf continues to support your course after opening day - ensuring it stays in great shape and draws repeat customers.

**Nick's Dinoland Golf – Bethany Beach, DE**

# Testimonials

The CastleGold crew was awesome! I have nothing but great things to say about the entire process working with their team from start to finish. It was a total class act, the work was done to the highest standards, and it all came out great! Looking forward to working together in the future.

**Andy Joakim**  
Wonder Mountain Fun Park – Moody, ME

Castle Golf did what they said they would do, they gave me guidance and help every step of the way! Since I am having so much fun running our first completed course, I'm planning a second.

**Frank Prete**  
Putter-A-Round – Brewster, MA

It took us six years for our 'dream' to come true and the professionals at Castle Golf were with us from the beginning to end no matter how difficult the situation. Thank you for making us stand out from the rest of the competition and for your patience and professionalism.

**Bob and Charlene Conway**  
Carousel Family Center – Fairhaven, MA

I am very pleased about this process and this company. Castle Golf has been everything they claimed to be and more. The construction crew made a lasting impression on this town – many people have commented on noticing the long hours and hard work they put in. Each stage of construction was done exactly as it was described – no surprises – and it turned out better than we imagined. We have had many (daily) comments about this course: “beautiful”, “challenging”, “delightful”, “nicest course I've ever played”, etc.
